

RIGHT LANE INDUSTRIES

Right Lane Industries is an industrial holding company which focuses on acquiring manufacturing and industrial services businesses for a permanent holding period. Right Lane's long-term hold period, made possible by utilizing internal equity capital, enables the Company to invest in employees, customer relationships, product development and other areas in ways that more typical private equity firms are commonly restrained.

Right Lane focuses on providing increased bandwidth and resources to its operating companies to execute on prudent growth over time. Key to this approach are shared holding company resources in the areas of Finance, Purchasing, IT, Marketing, HR, Strategy and more.
